

# TESTING YOUR ADOBE FLASH PLAYER INSTALLATION

When you are ready to test the Adobe Flash Player, you can type this link below into your web browser:  
<http://helpx.adobe.com/flash-player/kb/find-version-flash-player.html>

If an animated ball floats across the screen under item 1, it is installed and functioning correctly.

The screenshot shows the Adobe Flash Player Help page. The main heading is "Flash Player Help / Find version". Below this, there is a search bar and a "Was this helpful?" section with "Yes" and "No" radio buttons. The main content area is titled "1. Check if Flash Player is installed on your computer" and includes a video player. A callout box points to the video player, which displays the text "Flash Player is running on your system." and a red ball. Below the video player, there is a table with two columns: "Yes, I can." and "No, I can't. I see an error".

Yes, I can.	No, I can't. I see an error
Flash Player is installed on your computer and it's working properly. However, to ensure that you have the latest Flash Player version installed on your computer, go to <a href="#">step 2</a> .	You see a blank box. It indicates that Flash Player is not installed on your computer. To install the latest version, go to <a href="#">step 4</a> .

Also, if you scroll down the page under item 2, there should be a table that displays Your Flash Player Version, Your OS (Operating System) and Your Browser.

The screenshot shows the "2. Find the version of Flash Player installed on your computer" section. It includes a paragraph explaining that the Flash Player version, OS, and browser are displayed in a box. Below this, there is a table with the following information:

This box dynamically displays the following information:	
Your Flash Player Version:	11.8.800.94
Your OS:	Windows Vista (64-bit)
Your Browser:	Mozilla Firefox

If the first two numbers of your free Adobe Flash Player Version are 10, 11, or above, you should be able to view the webcast without going through additional steps to upgrade your free Adobe Flash Player.

**CONGRATULATIONS!**  
**You should be ready to view the webcast event**
